

**CIS 593 – BIG DATA**  
**LAB ASSIGNMENT – 3**

**Name: Pooja A. Khatri**

**CSU ID: 2783752**

---

**Extra credit work:**

**automatic process for data collection, and storage  
and retrieval using mongoDB**

# 1. Platforms

Language used: Python

Python IDE: PyCharm

Database design tool: mongoDB

## 2. Files included

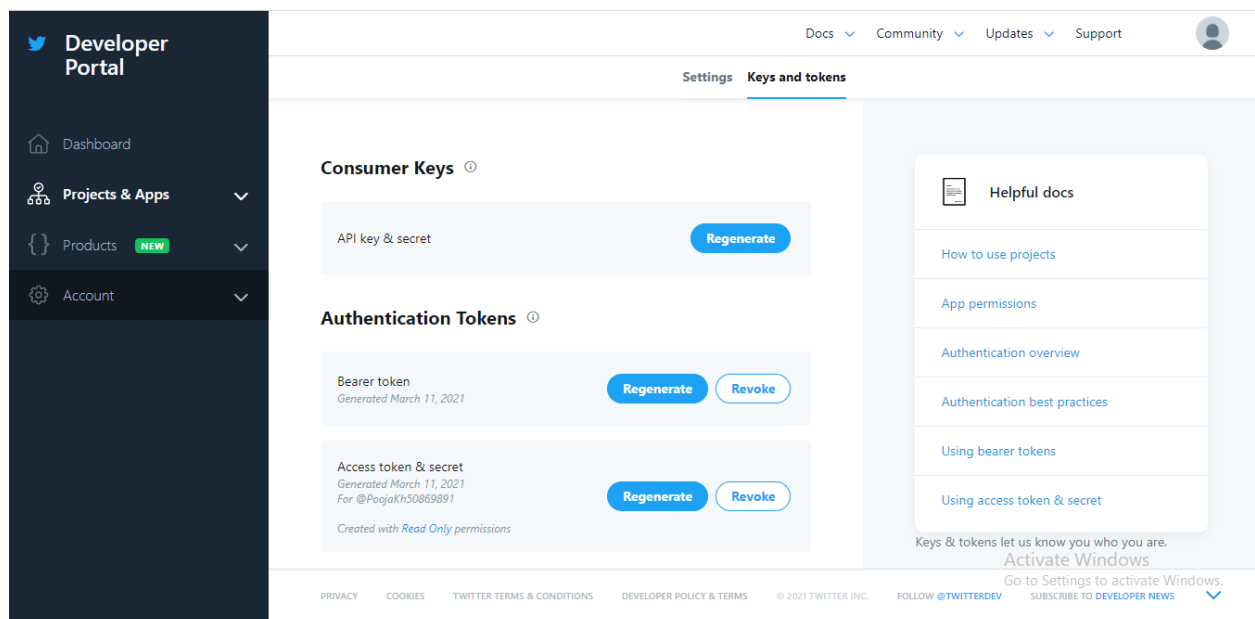

Main.py, QueryResults.xlsx showing query results for all queries in different sheets

## 3. Steps performed for lab

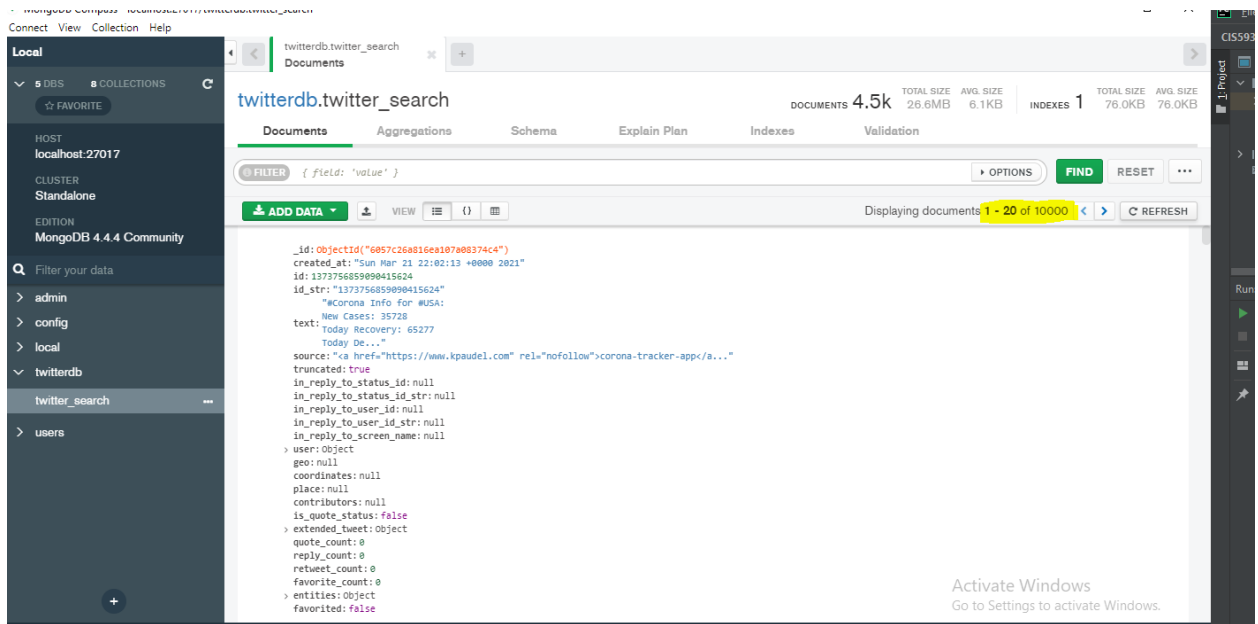

- Sign-In to Twitter developer account and generate API tokens
- Fetch JSON from tweeter using RestAPI
- Parse all data in python and make mongoDB connection
- Import all data into mongoDB Database
- Retrieve data from mongoDB dynamically

## 4. Screenshots

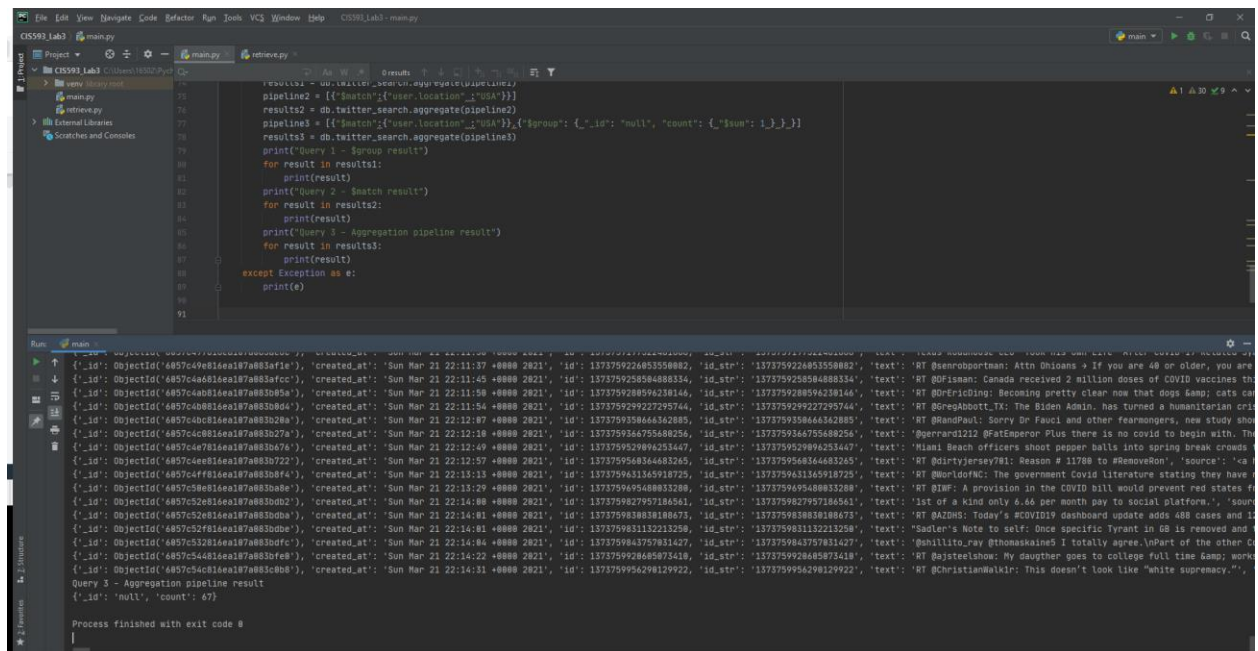

Twitter developer account obtained successfully

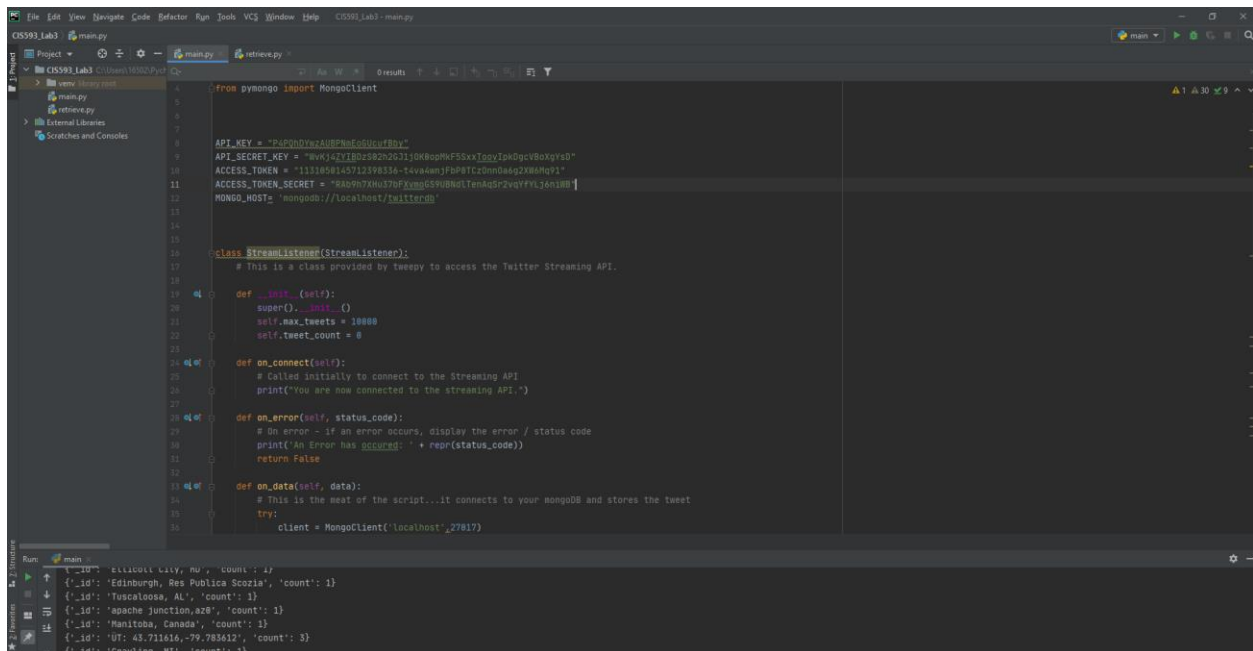

mongoDB showing 10000 documents

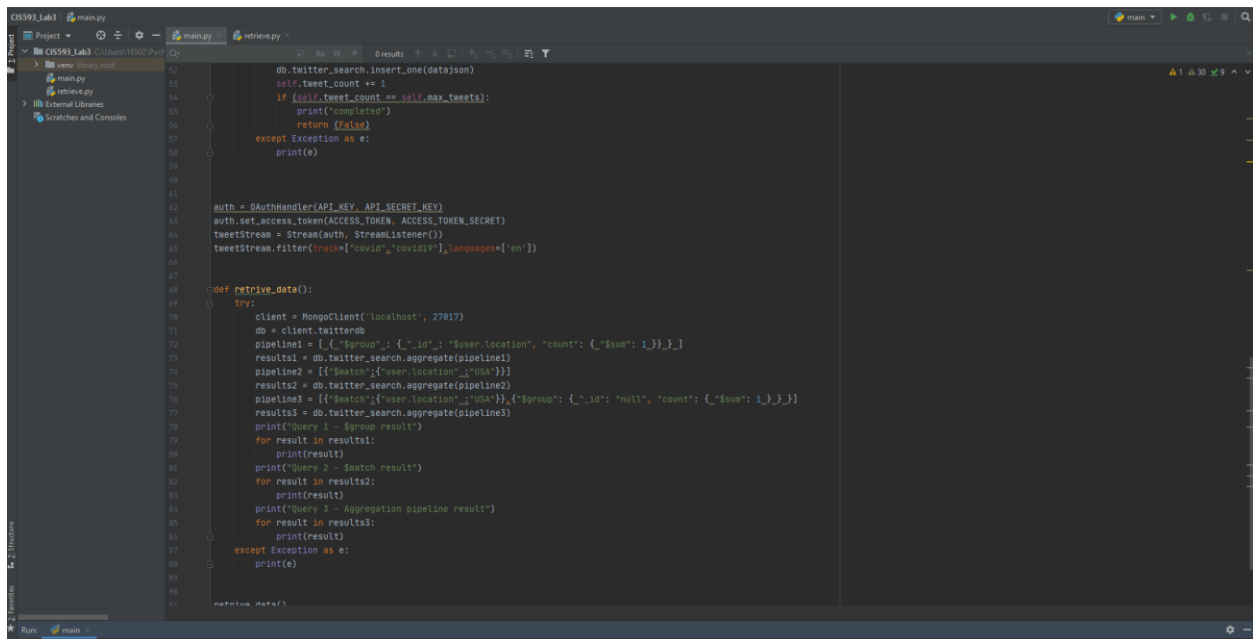

## Pycharm showing successful execution

```
